BELLCOM

P.O. Box 1043, Peterborough, Ontario, Canada K9J 7A5

Dear Atari User,

Thank you for requesting the BELLCOM Public Domain & Shareware Catalogue. More and more Atari users like yourself are finding out about BELLCOM's unique software catalogues and, as a result of answering all of the new inquiries, I have run out of copies.

Rather than reprinting the old 1990 version, I am concentrating all of my efforts on preparing you a brand new 1991-92 BELLCOM Public Domain & Shareware Catalogue. Since January, I have personally reviewed over 200 disks full of NEW programs. Only the best programs are being selected from these disks and placed onto BELLCOM Theme Disks. Like you, I'm very fussy about quality. Your new catalogue will offer you well over 500 Theme Disks full of popular programs!

Since 1986, it has been my continued aim to offer Atari users an affordable alternative to expensive hard-to-find commercial software and disorganized collections of Public Domain. Not only will BELLCOM save you money, but you simply won't find a more comprehensive or a better organized collection of Atari 8-bit software programs available anywhere. And, every single program has been tested and is 100% guaranteed to run on your Atari system or I will replace it FREE!

Your name is entered on my mailing list and you'll hear from me just as soon as the new catalogue is back from the printers. I'll also throw in some valuable coupon offers for you as a thank you for waiting. The very best in Public Domain and Shareware programs from Atari user groups around the world can now be yours.

Meantime, I have enclosed a copy of my 1990 CATALOGUE SUPPLEMENT for you which lists over one hundred of our popular Theme Disks. All are still available to you at last year's low prices and every disk carries my personal **Guarantee**. Have a look through it's pages and place your order today. Discover why Atari users have made BELLCOM the world's largest and number one source for 8-bit Public Domain & Shareware programs. I'm looking forward to being able to serve you.

Sincerely,

Don Bell, BELLCOM

Earn a free BELLCOM Single-sided Theme Disk simply by calling a BBS

Advertising is our biggest expense and, to keep our prices low, we need your help to tell other Atari 8-bit users about BELLCOM. Simply log onto the Atari 8-bit section of your favourite BBS and leave a brief message telling other 8-bit users how they can obtain a copy of our Catalogue. Then, enclose this coupon with your next order for 5 or more Disks, giving us the phone number of the BBS you placed the message on. After verification, a single-sided Theme Disk of your choice will be sent FREE with your order. Please try to use the following wording in your BBS message: "Atari 8-bit users! Looking for software? Send for the huge BELLCOM Public Domain & Shareware Catalogue. It's great! Write to BELLCOM, P.O. Box 1043-BB, Peterborough, Ontario, Canada K9J 7A5".

I have enclosed an order for 5 or more Disks with this coupon as required. I have also placed the above message on the BBS listed below. Please send my free BELLCOM Theme Disk with my order.

20 or more DISKS	\$2.75 ea. U.S.	\$3.25 ea. U.S.

* To figure out the Theme Disk Unit Cost prices, add up the total number of disks ordered (including both single-sided and double-sided disks) and simply multiply by the appropriate unit costs reading across the chart at left. Remember, the more disks you buy, the more money you save!

- **All prices quoted above are in U.S. DOLLARS.** Simply enter the appropriate Unit Cost on the order form.
- **American customers** may easily pay by VISA, personal check, or postal money order in U.S. funds.
- **Customers outside the U.S.A.** may pay by VISA or obtain an international money order or bank draft in U.S. or equivalent Canadian dollars (whichever is easiest to obtain). Please make all drafts, money orders, etc. payable to BELLCOM. On orders originating outside the U.S.A. please add an additional \$4.00 for Air Mail.

YOUR HOME COMPUTER CAN EARN YOU MONEY!

HOW ANYONE CAN START A PUBLIC DOMAIN COPY SERVICE

I have made money on Public Domain & Shareware and I have had fun doing it. Why not you? In these difficult times, I know that many of you would like to have your hobby pay for itself, provide extra cash, and maybe even start you on a new career. Public Domain & Shareware has done all these things for me and more, and I'd like to share my methods with you. Because the market's too big for just BELLCOM. Because I like to help others. And because I know you'd really enjoy this business!

It's a proven fact in business that whenever you meet a need, you make money. There are millions of computer owners throughout the United States and Canada, and they are all confronted with the same problem. The high cost of commercial software! As a result, they look elsewhere. More and more of these people are turning to Public Domain & Shareware as a solution to their problem. The price is easily affordable and the quality just keeps getting better and better. It almost sells itself!

Over the years, many computer owners have asked me how to get started selling Public Domain & Shareware, but it's not something I could even begin to explain over the telephone or in a letter. So, I decided to write a straightforward manual to give you all the facts you need to make money and avoid the costly mistakes. This revealing manual will be of interest to any computer owner desiring to make money from home.

You'll learn - ■ How to start in your spare time at home with little or no money ■ How to create an outstanding P. D. & Shareware library that's unlike any other ■ How to prepare catalogues and brochures that really bring results ■ How and where to advertise ■ How to anticipate sales volume ■ How to buy your equipment and supplies wholesale ■ How to set prices that ensure profits ■ How to easily keep records ■ And more!

The manual will not be ready for publication until later this year. At that time, a brochure giving a full description of the manual and its cost will be mailed out to a special mailing list only. If you're interested in being on this list, then fill out and mail this coupon to BELLCOM today. Later, you'll receive the brochure to examine FREE - no cost, no obligation.

Why not let your home computer provide the extra money you need?

EXCITING NEWS FOR 8-BIT OWNERS!

SPECTACULAR ATARI 8-BIT COMMERCIAL PRODUCT SALE

Recently, an Atari mail order dealer went out of business and I was able to buy up his remaining Atari 8-Bit stock at below wholesale prices. That's why I'm now able to offer you these tremendous bargains. The Atari XL-XE products listed below are all brand new, right off the shelf, and come in their original packaging. And right now you can get them at a fraction of their original price! What an opportunity!

You'd be wise to take advantage of this unusual opportunity while it lasts! Quantities are very limited and some items are one-of-a-kind. This may very well be your last chance to buy that special item you always wanted. This offer is only good till February 28th, 1993, or as long as supplies last. When they're gone, they're gone! Atari 8-bit products are getting scarce, so act now! Grab a bargain before it's too late!

MISCELLANEOUS ITEMS

As it's getting a little crowded here at BELL.COM, I am having to clear out my piles of magazines and a few other odds and ends. It's just impossible to keep everything and still have room to live too! Although the items below are not new, they're "nearly new", and still in pretty good condition. I'm sure someone will really enjoy having them.

ODDS & ENDS

■ P.D. SUPER SURPRISE BOX

Great for collectors, hackers, and the curious! 50 assorted single and double-sided disks containing a wide variety of P.D. programs! These are the actual disks from which the BELL.COM Library was prepared. No guarantees! You'll find some real gems, but there are some bugs and duds, and you may even already have some of these programs. If so, just reformat 'em. At just 40 cents each, it works out cheaper than buying blank disks! You can't lose!
